

Enrolling/signing on to Schoology

Enrolling:

Parents

If it won't let you use your email address, your child may have your email address on file which causes a conflict. You can either:

- Enroll on Schoology using an alternate email address.
- Call your child's school and ask to change the email address on file for your child. After the overnight update, you should be able to enroll with your email address.

Educators/Students

Educator and student accounts are created by the district. You shouldn't need to enroll, just sign on with your Puyallup School District (PSD) username and password

Signing on:

Parents

Your user name will be *either* your email address or the user name you selected at sign on.

If you forgot your password, click on "Forgot your password" on the login screen. If, after entering your email address, you are told to call the help desk, then your email address was not entered when you enrolled for Schoology. If there is an email conflict with your child, you can call your child's school and ask to change the email address on file for your child.

Educators/Students

Your Schoology login information will always be the same as your PSD login. If you need to reset your PSD password, please call the help desk at 253-841-8600
